INEX Slovakia is a non-profit organization that provides an opportunity for young people of different national and cultural backgrounds to live and work together.

Activities of INEX are focused on the youth mobility and the non-formal education. Main aim of volunteering activities is to provide help to the local community or to any project necessary (social, environmental, renovation, cultural etc.). Young volunteers can spend their free time valuably, can meet other people coming from different cultures, learn from each other and enjoy their lives differently. We organize different voluntary activities including International voluntary workcamps, activities within the Programme European Solidarity Corps, weekend workcamps and free time activities for children and people with special needs.

"Make a step to a change"

The project will involve three volunteers from three different countries. For 11 months volunteers will be involved in various activities (trainings, international voluntary camps, promotional activities, administrative work, and meetings of volunteers). They will meet different groups of people (social disadvantaged, people with disability, young people, students, children, seniors) on these activities. They will prepare events, workshops and leisure activities while using the methods of non-formal education. Volunteers will work on their own workshop on the topic which is current in our society and according to their own interests.

All activities contain an educational part and they help with the development of volunteer's competences and skills. The project will be an important experience for volunteers and will contribute to their personal and professional growth.
