Type: ENVI

Vols: 10

Language: English

Age: 18 - 30

**Partner:** The Slatinka Association was established in 1993 as a reaction to the construction of the Slatinka water dam on the Slatina River. The association's mission is to work at the basin of the Slatina River, to protect the environment and preserve natural areas while spreading consciousness of the project's effects on nature. One of their main aims is to bring life back to the village of Slatinka, since many people had to leave due to the dam construction. Workcamps like this one have been organized in Slatinka since 2011.

**Work:** The work will be done around and in the village of Slatinka. The volunteers will help with cleaning the area in Slatinka: cutting the grass, taking care of the trees, collecting herbs. Help will include restoring the wetland and cleaning wells. The working hours are from Monday to Friday divided as follows: 4 hours in the morning and 2 hours in the afternoon. There are no special skills required. By participating to this project you contribute to protecting sustainable use of terrestrial ecosystems (UN SDG 15).

**Accommodation & Food:** Volunteers will stay at a local school called the Eco Center. The center has an outdoor shower that requires participants to manually heat the water before each shower, and the toilets are dry (outhouses). There will not be access to running water, so water will be delivered or taken from a well pump for showers. Drinkable water will be provided by the local partner. On-site access to electricity and mobile signal is available. There are two bedrooms with mattresses, but a **sleeping bag** is required. Volunteers will be responsible for cleaning the accommodation site. Meals will be prepared by the volunteers themselves. Volunteers will be divided in the kitchen teams and will cook together; the groceries will be provided. The food will be mostly vegetarian.

**Location and leisure:** Slatinka is a little village near Zvolen located in the Central part of Slovakia. The village is surrounded by beautiful nature with many touristic routes and hiking opportunities. The volunteers may visit Zvolen, where they will find a castle, a historical center and other interesting sites.

**Study Part:** The workcamp will have a rich environmental study part as the local partner is an ecologically-focused organization. Volunteers will learn about environmental protection efforts in Slovakia and all the issues related to the dam construction. Participants will also learn about the history of Slatinka and Zvolen. The volunteers will prepare the "Feast of cultures" - an international food evening. Part of the program is "volunteering footprint" workshop and an educational workshop about current events in Europe. Our camps will follow the rules of Sustainability campaign.

**Important:** This project is supported by the program European Solidarity Corps (ESC) for young people between 18 and 30 years. It is open to all volunteers that fit the ESC criteria. Volunteers will receive a financial support for their travel, according to a maximum amount established in accordance with their travel distance and upon the presentation of original tickets; volunteers need to enrol in the PASS, the ESC Portal; then INEX Slovakia will organise their matching, on the online system, with the volunteering project.

**Summary:** Live in peace with nature and learn about other cultures at Eco-Slatinka! Don't miss your adventure in Slovakia!

## Leaders of the workcamps 2025

Not only volunteers evaluated their activities during the workcamp, but we are asking a feedback also from the leaders of the workcamps. These are the most interesting ideas from the feedbacks. We didn't translate any of them because we want the questions to be authentic.

*I grew quite a lot personally. I had never lead a project like this, and now I know I am able to and feel more confident about myself.*

*I gained knowledge about environment protection, experience to live deep in the nature but not alone, with a community and it felt great I think i want something like that in my future, i gained friends and to share experiences with them, i gained self confidence when I was seeing that everything were doing well day by day, also I practiced conflict resolution and communication, so a lot of new skills!*

*Myslím, že toto bol jeden z najlepších workcampov, aký som mal a to aj vďaka mojej kolíderke Sarah, ale aj typom práce, akú sme mali. Naučil som sa niečo o novej Gen Z generácii a lepšie plánovanie Hodov kultúr.*

*Získala som priateľstvá, cenné spomienky:). Naučila som sa trpezností. Jediné očakávanie, ktoré som pred projektom mala, súviselo s tým, že som dúfala, že to bude fajn projekt s fajn ľuďmi, a to sa aj splnilo:)*

*I gained some new friends and a lot of good memories.*

*Určite to bola neuveriteľne obohacujúca skúsenosť. dalo mi to veľa insightov do toho ako fungujú ľudia v skupine a ako to všetko zmenežovať. rozhodne som bola konfrontovaná aj so svojimi zlými vlastnosťami. Musela som sa naučiť pracovať v tíme. a myslím si že som si zlepšila aj svoje prezentáčné schopnosti. Čiže áno splnili sa všetky moje očakávania, ba dokonca boli prekonané.*

*New friends, leadership skills, discovering archeology. It met my expectations.*
